Tax Deductions

Tuition payments made before December 31 may be able to be used for the State of WI tuition tax deduction for private school families on your tax return. The State of WI, allows parents to deduct private school tuition. Parents of private school students in WI could receive an income tax deduction for tuition paid for each kindergarten through high school student. Only the amount paid between January 1 and December 31 will qualify for the deduction and only the amount that you personally paid. We highly recommend that families work with their tax advisor to determine benefits.

Tuition includes any amount paid by the claimant for a pupil's tuition to attend an eligible institution and mandatory book fees paid to the institution. Tuition does not include amounts paid with a voucher or any amount paid as a separate charge such as: supplies, rental of equipment, meals, transportation, and personal use items such as uniforms or gym clothes, before or after school child care, extracurricular activities such as music or athletic fees.

Only the person who claims the child as a dependent can use the deduction. For example, grandparents who pay tuition cannot take the deduction (unless they claim the child as a dependent).
