Tax Deductions

Remember, tuition payments made before December 31 may be able to be used for the State of Wisconsin tuition tax deduction for private school families on your 2020 income tax return.

The State of WI, allows parents to deduct private school tuition. Parents of private school students in Wisconsin could receive an income tax deduction of up to \$4,000 for tuition paid for each kindergarten through eighth grade students and up to \$10,000 per high school student. Only the amount paid between January 1 and December 31, 2020 will qualify for the deduction. We high recommend that families work with their tax advisor to determine benefits.

Tuition includes any amount paid by the claimant for a pupil's tuition to attend an eligible institution and mandatory book fees paid to the institution. Tuition does not include amounts paid with a voucher or any amounts paid as a separate charge such as: supplies, rental of equipment, meals, transportation, and personal use items such as uniforms or gym clothes, before or after school child care, extracurricular activities such as music or athletic fee.

Only the person who claims the child as a dependent can use the deduction. For example, grandparents who pay tuition can not take the deduction (unless of course they claim the child as a dependent).
